

We are as worried as you are about the current coronavirus and the illness Covid-19.

Which is why we have increased our guest safety measures:

- All the hotel team have completed Infection Control training with Coronavirus specific elements
- We review our methods on working in light of advice and keep this updated
- We clean the old fashioned way - plenty of detergent (soap) with water and then sanitise afterwards
- We individually plate your dinners and meals (we always have done) so no buffet bars to contend with
- We have extended full plated service to our complete breakfast offer
- Our teams operate separate work areas with little crossover
- Our cleaning routines are very detailed, for example housekeeping staff sanitise contact surfaces e.g. your door handles prior to and when leaving your room
- We recently retained our 5\* Food Hygiene - further endorsing our approach to cleanliness which is part of our DNA
- You can enjoy breakfast/light evening meal in your room if you prefer

The clean open air and big open spaces make North Devon a great place to get away from it all. This has always been the case and is the same today as it's always been.

We have relaxing lounges for you to enjoy if you don't want a day out.

Our focus is in ensuring you get a safe break away from it all, which is more important than ever. If you have any questions, please speak with a member of the team
